GIRLS IN ENERGY VILLAGE

Career | Skills | Innovation | Leadership | A Sustainable Future

Clean Energy + Digital Inclusion = Equal Opportunities

A Transformative Learning, Innovation and Opportunity Hub for Girls and Young Women

Project Overview

The Girls in Energy Village is a transformative learning, innovation and opportunity hub for girls and young women. It brings together career development, skills, innovation and leadership within an integrated environment designed to advance a sustainable future. Its guiding proposition is that clean energy and digital inclusion can create equal opportunities.

The Village combines learning facilities, accommodation, renewable-energy infrastructure, sports and recreation, health and wellbeing services, and spaces for innovation and enterprise. It is designed to empower girls, power communities and contribute to building a sustainable Global South.

Key Facilities and Sessions

1. **1. Convention Centre —** Conferences | Awards | Exhibitions | Media
2. **2. Girls in Energy Academy —** STEM | Digital Skills | Career Readiness

5. **5. Sports & Fitness Field —** Physical Health | Team Building | Leadership
6. **6. Renewable Energy Farm —** Solar | Battery Storage | Energy Learning Lab
7. **7. Central Green & Recreational Area —** Sports | Wellness | Community Building
8. **8. Cafeteria & Dining Hall —** Nutritious Meals | Food Tech | Culinary Skills
9. **9. Health Centre —** Medical Care | Mental Health | Wellbeing
10. **10. Multifunctional Centre —** Innovation | Incubation | Business Support

Three-Level Affordable Housing Scheme

The Girls in Energy Village incorporates a three-level affordable housing scheme, designed to serve different household and income groups. The scheme is guided by the principle: "Globally Inclined. Locally Empowered."

1. Social Housing – Basic Comfort for All

- Affordable, quality homes
- Clean energy access
- Safe and healthy living

For low-income households

2. Affordable Housing – Growing Families

- Spacious, energy-efficient homes
- Modern amenities
- Flexible ownership options

For middle-income families

3. Premium Green Housing – Live Better

- Smart homes with advanced features
- Net-zero energy design
- Premium living, sustainable future

For professionals and investors

Girls in Energy Village Accommodation

The accommodation component includes hostels and dormitories, providing a "Safe • Secure • Supportive" environment.

Integrated Ecosystem

- **Renewable Energy:** Solar power and clean-energy solutions..

Key Programmes

- **STEM & Digital Skills —** Learning and capability development in STEM and digital skills.
- **Career Pathways —** Exposure to and preparation for careers in the energy sector.
- **Innovation Hub —** A platform for ideas, creativity and innovation.
- **Entrepreneurship Support —** Support for entrepreneurship and enterprise development.

Inclusive Impact

- **Affordable Housing —** Access to affordable housing.
- **Jobs & Livelihoods —** Opportunities for jobs and livelihoods.
- **Green Communities —** Development of green communities.

- **A Sustainable Future —** Contribution to a sustainable future.

Our Vision

To transform affordable housing into a platform for energy access, skills, employment and inclusive prosperity for the Global South.

Our Message

Empowering Girls. Powering Communities. Building a Sustainable Global South.

Together, we build a brighter, greener and more inclusive future.
